

## TAMALE SOFTWARE INTRODUCES CUSTOMIZATION SERVICES

**New York, NY** (December 3, 2007) – Tamale Software, the market leader in research management, launched a new division dedicated to supporting the customization of Tamale RMS. Tamale RMS is an innovative product that helps portfolio managers and analysts manage their investment ideas more effectively, and easily access all of their firm’s research. The new division is named Tamale Solutions.

Tamale Solutions offers funds the flexibility to extend the robust features of Tamale RMS and tailor it to meet their specific workflow requirements. Tamale Solutions has already completed a dozen projects for clients including templates that structure the capture of an investment thesis, reports that relate positions to recommendations, and the integration of proprietary internal systems with Tamale RMS.

“Investment professionals like having the option to customize their technology,” said Zack Sung, Director of Tamale Solutions. “RMS, from its inception, was built around open standards and flexibility. Tamale Solutions leverages the RMS framework to build unique functionality for clients that enhances their investment process.”

Clients can choose to have Tamale Solutions customize Tamale RMS or they can perform the work themselves by using the Tamale Software Developers Kit (SDK). The SDK gives clients full programmatic access to the Tamale RMS platform, documentation and developer support. To learn more about Tamale Solutions please visit [www.tamalesolutions.com](http://www.tamalesolutions.com).

---

Tamale Software ([www.tamalesoftware.com](http://www.tamalesoftware.com)) created the first software solution designed specifically to help investment professionals manage their investment ideas more effectively, and easily access all of the firm’s research.
